

RACING OFFER 2020

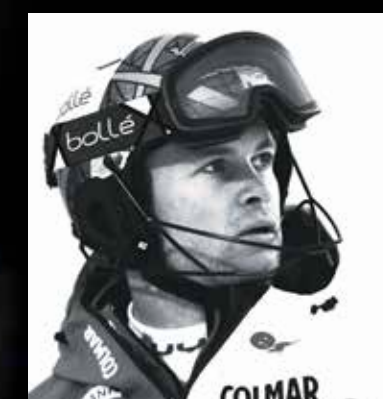

PERFORMANCE INNOVATION SINCE 1888

INTRODUCTION

Established in 1888, Bollé has earned a strong recognition in the ski racing community and all over the globe. This 130 years long success is the result of in-depth work based on an undiminished commitment to innovation and quality. Today, Bollé helmets & goggles are acknowledged for advanced technologies and comfort: always serving protection for athletes and improving performance. From materials to finish, no detail has been left to chance and each product has been developed to deliver comfort, protection and quality in all circumstances. That is why champions like Alexis Pinturault, Anna Veith, Tessa Worley, trust us to compete with our products, and before them Jean-Claude Killy, Luc Alphand, Didier Defago, Carole Montillet and Kale Palander. No matter the level of skill and the discipline, Bollé has imagined a unique product always adapted to your needs.

Phantom Vermillon® Blue

ALEXIS PINTURAULT

- Alpine skier**
- 1x Olympic silver
 - 2x Olympic bronze
 - 1x World Champs gold
 - 2x World Champs bronze
 - 3x Combined Cup Winner
 - 24x World Cup Wins

SIGNATURE SERIES

Bollé has a long-lasting tradition of supporting the greatest champions. Since the 1960s, the brand provides top winter sport athletes with their competition gear, and they then share their insights with the development team to create products that meet the high standards of top-level sport.

Anna Veith and Alexis Pinturault, two of the world's best skiers, put their personal touches on their favorite competition goggle NEVADA. An expert gear deserves nothing less than expert lens technology, and that is why these special editions feature Bollé's most advanced lens technology Phantom for ultimate vision on the snow.

 - 2x Olympic Silver
 - 3x World Champion
 - 2x Overall World Cup Winner
 - 2x Giant Slalom
 - World Cup Winner
 - 15x FIS World Cup Wins

MIPS® TECHNOLOGY

MULTI-DIRECTIONAL IMPACT PROTECTION SYSTEM

MIPS® ADDS MORE PROTECTION AGAINST ROTATIONAL MOTION

MIPS® is a revolutionary technology that lets the helmet slide relative to the head, adding more protection against rotational motion to the brain caused by angled impacts. Because keeping you safe in every condition is our priority.

■ = THE MORE RED THE MORE STRAIN

This simulation illustrates strain in the brain from a similar angled impact when the user is wearing a helmet without MIPS® and a helmet with MIPS®.

FROM NOW ON, THE BEST BRAIN PROTECTION IS AVAILABLE ON EVERY NEW BOLLÉ HELMET

MIPS® on visor helmets

MIPS® on snow helmets

MIPS® on cycling helmets

MEDALIST CARBON PRO MIPS®

SIZES: FROM 53 TO 63 CM

Designed to meet the demands of the world's best ski racers with refined aerodynamics and safety. MEDALIST CARBON PRO MIPS® features full carbon fiber construction, and a reduced form factor that is a direct result of aerodynamic design. A customizable fit to provide perfect stability and comfort results in a real competitive advantage.

LOCKED IN

NEVADA NEO

LOCKED WHATEVER THE ACTION

Thanks to the EyeLatch, secure your lens in a blink of an eye.
Open it to change the lens, and close it to lock it for the whole
session, whatever the action.

FORGET THE WEATHER

With its kit of 2 magnetic lenses, NEVADA NEO offers the best vision
whatever the conditions. Change the lens quickly to adapt to weather shifts.

NEVADA NEO

FIT: MEDIUM / LARGE

NEW

The first magnetic goggle in Bollé's range, NEVADA NEO, encompasses all the technical features available on NEVADA with an extra asset: a magnetic lens locked whatever the action thanks to Bollé EyeLatch. Unlike other magnetic goggles on the market, the EyeLatch makes sure the lens stays put no matter the intensity of the run. NEVADA NEO is available with Phantom and Phantom+ photochromic lens.
