WEATHER FORECAST

TUESDAY 26: Only partly sunny weather due to wide High clouds, thick at times, which will be able to limit sunshine. Very warm climate at high altitude, with thermal inversion conditions in the morning. Windy weather aloft, in the valley too due to Foehn.

Temperatures: Further generally rising. At 2000 m min 5°C max 9°C, at 3000 m min -1°C max 2°C.

Wind: On the pass moderate winds from North-East; on the top of Col Margherita moderate in the early morning, then strengthening up to fresh. In the afternoon fresh/strong ones from North-East, 20-40 km/h a 2000 m, 40-60 km/h at 3000 m.

WEDNESDAY 27: Only partly sunny in the morning due to residual veiled clouds. Later newly completely clear sky. Still dry air with good visibility aloft. Very warm climate aloft, despite a light falling in temperature.

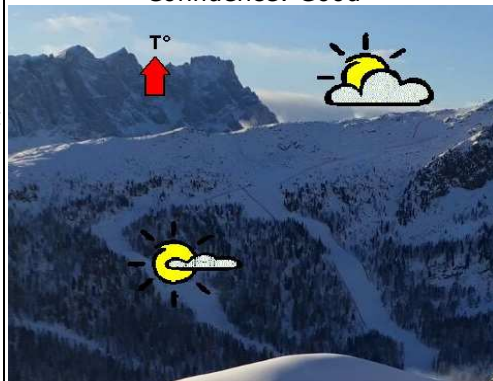

Temperatures: Slightly falling. At 2000 m min 2°C max 7°C, at 3000 m min -3°C max 0°C.

Wind: On the pass moderate winds from North-East, weakening in the afternoon. On the top of Col Margherita weakening from fresh/strong in the morning to light/moderate in the afternoon/evening from North-East, 10-40 km/h a 2000 m, 20-65 km/h at 3000 m.
