

Organize

- Setup the event and plan your budget.
- Establish the categories tree, the venues and reserved areas.
- Allocate the area access rights.
- Define specific services and associated sub-events.
- Arrange the ticketing system for spectators

Communicate

- Promote your event among social channels and web with templated newsletter.
- Advise the volunteers with SMS about sudden change .
- Maintain contact with press department.
- Broadcast live video streaming about athletes press-conferences and documentaries.

Analyze

- Visualize detailed reports on people impact, monitor attendance and flow.
- Verify the load of specific sectors (transportation, catering, others).
- Survey categories to collect people's opinions about organization capacity and efficiency.

Manage

- Coordinate the different departments, schedule and optimize the resources.
- Accommodate your guests and supervise arrivals and departures.
- Personalize the access rights, deliver the passes and activate additional rights (e.g. parking pass, wi-fi pass).
- Keep record of delivered equipment and support catering services.

Collect

- Acquire accreditation data from public channels (web form, email, fax form, dedicated module).
- Invite your listed participants (journalists & photos, special guests and VIP) and manage the confirmation.
- Coordinate the online credit process in agreement with other stake-holders (TV and Radio rights holder, race-office, others).
- Register the volunteers' skills and competences.

Applications

Sport Contests

Cultural Events

Exhibits

Meetings
