

Natural Soap is ideal for cleaning and maintenance of oiled, waxed and soaped surfaces. The Natural Soap is especially ideal for floors, furniture, table tops and panels. The oily Natural Soap forms a protective film on the floor. Natural Soap may be used for cleaning of most oiled floors.

- **Effective care and cleaning**
- **Fast and easy to use**
- **For the basic treatment of softwood floors**
- **IBR-certified**

Application area

Natural Soap is ideal for cleaning and maintenance of oiled, waxed and soaped surfaces.

Work description

Preparation	Very dirty floors may be cleaned with Wood Cleaner and subsequently with Natural Soap.
Treatment	Natural Soap is shaken carefully before use. 125 ml Natural Soap is mixed into 5 L of lukewarm water. It is recommended always to work with 2 buckets: one with soap water and one with rinsing water. Clean the floor with minimum quantity of water – leave soap water on floor briefly in order to dissolve dirt. Remove dirty soap water with hard-wrung mop or cloth and rinse out in bucket with rinsing water. Always wipe floor with soap water on hard-wrung mop or cloth in order to re-establish the protective Natural Soap film.
Note	Daily cleaning is made with vacuum cleaner or broom. The frequency of floor cleaning depends on the wear on the floor. Don't use microfiber.

Drying time

Natural Soap

Cleaning and protection of oiled wood

Technical Data Sheet

03.06.2019 – p. 2/2

Technical data

Coverage	320-400 m ² /L
