

The start is as usual in the centre of Predazzo.

The cyclists ride across all villages in Val di Fiemme, reaching the South Tirol, through the San Lugano Pass.

After the suggestive bridge of Aldino, the first uphill to Monte San Pietro starts.

Then the course passes through Nova Ponente and goes down to Novale.

A new uphill is to reach the Lavazè Pass, where there is the first Sprint. The panorama is amazing: on one side the Latemar Dolomites, while on the back you can see the Brenta, the Ortles, the Adamello, the Sciliar and the Zillertal Alps.

The villages of Val di Fiemme are crossed again till the finish of the short course, exactly where the start is settled.

Those who choose the long race go on to Val di Fassa.

Moena, in Val di Fassa, is called the "Fairy of Dolomites" because it is surrounded by such mighty mountains as the Catinaccio-Rosergarten and the Sassolungo.

The climbing to the San Pellegrino Pass is framed by the Monzoni rocky mountains until the second Sprint.

The last effort is the uphill to the Valles Pass. Then, it is the moment of the downhill to Predazzo, through the Paneveggio Natural Park with the background of the beautiful Pale di San Martino mountains.

Finally the finish line!

**We are waiting for you
on Sunday, 29th of June for the
8th Marcialonga Cycling Craft**
